Short lengths of All Pure Linen Table Damask, in lengths of 2, 3 and 4 yards—all perfect goods, at the special low price of 65c yard.

## CHESAPEAKE & OHIO TO BUY GREENBRIER WHITE

Negotiations Pending Whereby Hot Springs Syndicate Will Take Famous Resort.

DEAL NOT FINALLY CLOSED

First Offer Said to Be High, Though Transfer Is Apparently Certain.

Negotiations are pending for the sale of the property of the Greenbrier White Sulphur Springs, in West Virginia, and it is understood, if a suitable price is agreed upon, that the famous resort will be acquired either by the Chesapeake and Ohio Railway Company or by persons interested in the welfare of that corporation. It is understood that the object of the purchase is to modernize the present grounds and buildings at the Greenbrier White, and make it a rival of the Virginia Hot Springs.

It is understood that the trustees of the Greenbrier property were asked for a bid, and that the deal is only held up by the fact that the proposition submitted was out of question. An authority who knows the situation, and that the property will ultimately be transferred to the care either of the railway or a company interested in its welfare.

Deal Not Closed Yet. President George W. Stevens, of the Chesapeake and Ohio, to a reporter of The Times-Dispatch, said yesterday: "As far as I know no deal for the purchase will be closed in the immediate future." Mr. Stevens would not deny that either he personally or associated with other capitalists had asked a figure.

He acknowledged that the purchase of the property was being considered, but gave out the impression that the owners wanted an elaborate price. Mr. Stevens was not inclined to discuss the negotiations, and stated that his information was received through personal correspondence, and he was not at liberty to make the contents of the letters public.

Mr. Stevens did not hesitate to say that in his opinion the purchase of the property would be a great benefit to the future of the Chesapeake and Ohio, as well as to Virginia. He stated that the deal, as at first contemplated, for the purchase of the property had fallen through, but that he could not be sure that there is no probability of the purchase being finally made. When told that an offer had been made for the property, Mr. Stevens said with a smile: "Yes, but it will never be sold at the price." He would not state what the price was.

Great Thing, Says Axtell. Decatur Axtell, vice-president of the Chesapeake and Ohio, and president of the Hot Springs corporation, was also interviewed. He said nothing about the deal, he said, "I would be a great thing for the Hot Springs if the rival company was formed, and it would materially benefit the Hot Springs. The Greenbrier, modernized, would be one of the most beautiful resorts in the country, and would serve to double the number of tourists who seek vacations in this section."

## WANT COUNCIL TO BUILD VIADUCT

Church Hill People Tired Waiting for Marshall Street Bridge.

According to the extension of time granted by the Council to the Richmond and Henrico Railway Company, the company will be obliged to post \$100,000 in cash with one of the city banks as a guarantee that the work of constructing a viaduct over Marshall Street, beginning at College Street and ending on Church Hill, will be begun within thirty days after the money has been deposited, and the work continued until the bridge is completed. The time for making the deposit will expire August 22, and according to the terms of the extension, actual work must be commenced by that date. Up to this time the members of the Street Committee have heard nothing from the company either as to the deposit or as to when the construction will begin.

Church Hill citizens, who are greatly interested in the proposed bridge, are already in communication with the committee, and in case the railway does not comply with the terms agreed upon with the Council, will present to the committee a petition asking the city to take the matter in hand and build a free bridge at the expense of the city of Richmond.

The viaduct, if built by the Richmond and Henrico Railway Company, will charge tolls.

Anxious for the Viaduct. Automobile owners, business men and physicians especially, are anxious to see the viaduct erected, and are waiting only for the company to let its time expire to make a formal request of the committee to recommend a course of action to the Council. Like Councilman Bailey and others who opposed the extension, they think that the city is amply able to build the viaduct, and that they should have it.

Already they have mentioned the matter to Councilman John Lynch, of Jefferson Ward, who will take the case to the committee in charge and fight the case to a finish in case the railway company does not stand up to representations previously made in its behalf before the committee. If it does not, the probabilities are that the committee will recommend to the Council that the city take charge of the bridge and build it for the people.

## GRIFFIN FINED TWICE ONE DAY

Police Board Adds \$25 to \$25 by Justice for Assault on Adon Yoder.

GIVEN SEVERE REPRIMAND

Because of Mitigating Circumstances, Officer Escapes Dismissal From Force.

Policeman W. D. Griffin, charged with having assaulted Adon A. Yoder on Saturday night, was fined \$25 in the Police Court yesterday morning, and was also fined the same amount by the Board of Police Commissioners last night and severely reprimanded, though the official findings of the commissioners stated that there were mitigating circumstances which induced the assault.

Yoder was invited into the meeting of the board, and he was permitted to ask questions. After the hearing of the testimony and the decision of the board, Officer Griffin was ordered to report at the First Police Station for duty at 1 A. M.

What Board Did.

The findings of the board follow: "The board has considered the matter and found you guilty of the charge and specification as preferred against you, and taking into consideration the provocation—it is clearly in evidence that the publication, which was false, inasmuch as it charged that you had framed up a case to get Officer Moody discharged and yourself appointed, and also the epithet of 'puppet,' which was applied to you therein, which is a word of contempt—taking these things into consideration in mitigation, but not in justification, of your action, I can state that you had been on the force only a short time, and that you were not aware of the gravity of your offense, they have determined to assess upon you a fine of \$25. I have also been directed to inform you that you must not lose your temper as a policeman. Their whole conclusion is that you were not justified, though you had strong provocation, and they therefore fine you \$25, and hope nothing further of this kind will occur again."

MEET HERE EVERY YEAR

Farmers' Institute to Hold Midwinter Session in Richmond Annually. Vice-President Henry W. Wood, of the Chamber of Commerce, who is also one of the most active members of the Farmers' Institute, has returned to the city from the semi-annual meeting of the latter body in Charlottesville. He announces that the institute has decided to hold its midwinter session in this city every year hereafter. These meetings will take place in January.

This decision on the part of the institute is due largely to the reception accorded its members when the organization met in Richmond in 1933, on which occasion the Chamber of Commerce and the municipality made every effort to make their stay pleasant and to facilitate their work. The meeting of this body here annually is considered one of the best things accomplished by the chamber recently, as it will afford a most excellent opportunity to strengthen the relations between the commercial interests of the city and the farmers of the State, a thing that the chamber has been working on and paying special attention to in the last few months.

WILLIAMS IS GRATEFUL

Winner for Attorney-General Thanks Colonel Cattlet for Congratulations.

As a reply to a letter of cordial congratulation sent him a few days ago by his unsuccessful competitor for the Democratic nomination for Attorney-General, Colonel Robert Cattlet, of Lexington, the following communication has been received by the latter: "Judge Samuel W. Williams, of Wythe, under date of August 11: 'I cannot express to you my very great delight at the receipt of your letter. I trust that nothing will ever occur to disturb the very pleasant personal relation which has always existed between us. I shall avail myself of the very first opportunity to give you personal assurance of continued kind feeling and regard. It is useless to add that I know your offer of support is sincere.'"

Married Here Yesterday.

Miss Stella Catherine Williams, of Williamsburg, and Benjamin Sales Joynes were married in the Jefferson Hotel yesterday morning by Rev. J. N. Latham, D. D., of Centenary Methodist Church. The bride, who is a native of Williamsburg, was accompanied by her father, Mr. and Mrs. P. B. Joynes, parents of the groom, and Miss Lella Charles. Mr. Joynes is in business in Norfolk, and the couple will live there.

Hurt by Car at Quarry.

T. J. Harp, of 336 West Grace Street, met with a painful accident on Saturday at his quarry, near Eos-cobel, in Goodland. In attempting to jump on one of the small cars leading to the crusher he fell and was run over by a large truck, passing over his right leg, mashing it badly and breaking some of the small bones. He was brought to Richmond Saturday night, and is doing as well as can be expected.

Changes in Fire Department.

The following promotions and transfers were authorized by the Board of Fire Commissioners last night: D. S. Boranman, from call man, Engine Company No. 3, to station man, Truck Company No. 3; W. P. Waters, transferred from Truck Company No. 1 to Engine Company No. 4; T. P. Abrams, promoted from substitute in Engine Company No. 4 to call man in Truck Company No. 1.

Dog and Goat Medals.

At a meeting of the Street Cleaning Committee last night contracts for dog and goat medals were awarded to the Southern Stamp and Stationery Company at 33 cents per medal. The medals will be made by the Southern Stamp and Stationery Company, of the Street Cleaning Department, reported that work on the medals had begun and was progressing well. Chairman Hobson appointed Alderman Boshen and Councilman Hirschberg to fill vacancies on the dog pound and crematory committees.

Marriage Licenses.

Marriage licenses were issued yesterday to Thomas R. Kennell and Margaret Allen, and Edward E. Burchard and Florence Garland.

## COTTON MANUFACTURERS LIKELY TO MEET IN RICHMOND NEXT YEAR

Board of Governors Urged to Come Here to Select Convention City.

MANY SPINNERS FAVOR IT

Chairman Smyth Believes Richmond Will Be Most Convenient to All Members.

Invitations have been sent by the Chamber of Commerce to members of the board of governors of the American Cotton Manufacturers' Association to hold their business meeting in Richmond, at which the question of the convention city for 1936 will be decided. This meeting will be called by Captain Ellison A. Smyth, of Greenville, S. C., chairman of the board, within the next ten days or two weeks.

Captain Smyth, who is president of the Byrd Manufacturing Company, probably the largest plant in the South, and three other mills, declared at the convention here in May that the "hospitality and advantages of Richmond were such that the city was almost an ideal meeting place for manufacturers from the South and New England. After the first meeting here in 1933 the spinners decided to come again, and that, too, when the original decision had been to meet in New York City. Should the convention return next year, Richmond will have broken all records for entertaining one of the most important associations in the United States.

Half Way Point Here. Although New Orleans has been mentioned as the chance for a largely against it, because of the fact that it is too far away from New England. Heretofore, a majority of the Southern mill men hurried to New York and Boston after concluding convention work in this city, and that way they saved time and made the two engagements fit most satisfactorily.

New England members likewise found Richmond a good location for the annual meetings, and in respect to the Cotton Association, the Chamber of Commerce has found that Richmond geographically offered the greater advantages. For this reason alone it would not be surprising if the manufacturers should return again next year.

As chairman of the board, Captain Smyth will call the members together in some city which will be mutually agreeable, and it is understood that his personal preference is Richmond. John Miller, Jr., president and cashier of the First National Bank, who has a wide acquaintance among Southern mill men, and William T. Dabney, business manager of the Chamber, have written personal and official letters to Captain Smyth and members of the board urging them to assemble here. Mr. Miller said last night that he believed the board would accept, and that the charms and advantages of Richmond would be present.

Mainly Consider Business. "Richmond just suits the Southern and New England spinners," said Mr. Miller. "And after all, it is a matter of convenience which they consider above everything else. The fact that Richmond is popular with conventions as a rule, although this is not the case with the manufacturers. They are busy men; they have little time to spare from their mills, and they have important work which must be done as quickly as possible. When we remember, therefore, that Richmond is about half way between New England and the South, and that we have hotel and auditorium accommodations which cannot be excelled, it is easy to understand why we have nearly everything in our favor."

If the board decides to meet here it will be entertained at dinner, and at the business session the various cities which are anxious to have the convention next year will be heard through their delegations. Mr. Miller and Mr. Dabney are enthusiastic to a degree over the prospects, and they have gone to work actively in behalf of the Chamber and the business people of the city.

"LIBBY HILL MUSEUM"

Pennsylvania Says He Has Key in Old Prison. Secretary Walford, of the City School Board, yesterday received a letter from a man in Philadelphia, Pa., who offered to sell the key to the old prison, known as the "Libby Hill Museum." The writer goes on to say that he has in his possession a key to the old and famous prison, and that he knows the exact location of the museum. The exact location, if any, of the Libby Hill Museum, so called, is not known, though it is thought to be in Chicago, as that is the last place in which the old reconstructed building has been heard of.

ALLEGED ASSAULT CASES

James Twitter, Colored, Said to Have Chased Man Through Bottom. James Twitter, colored, was arrested yesterday evening on a charge of disorderly conduct at 115 E. 12th Street on Friday night. It is alleged that he chased James Hatcher through Penitentiary Bottom that night with a knife in his hand, and threatened himself yesterday at the Second Station.

Robert Evans, colored, was arrested on a charge of being disorderly and beating Mary Smith.

Robert Crowder, white, was arrested on a charge of assaulting J. W. Burnett. He was bailed by Judge Witt.

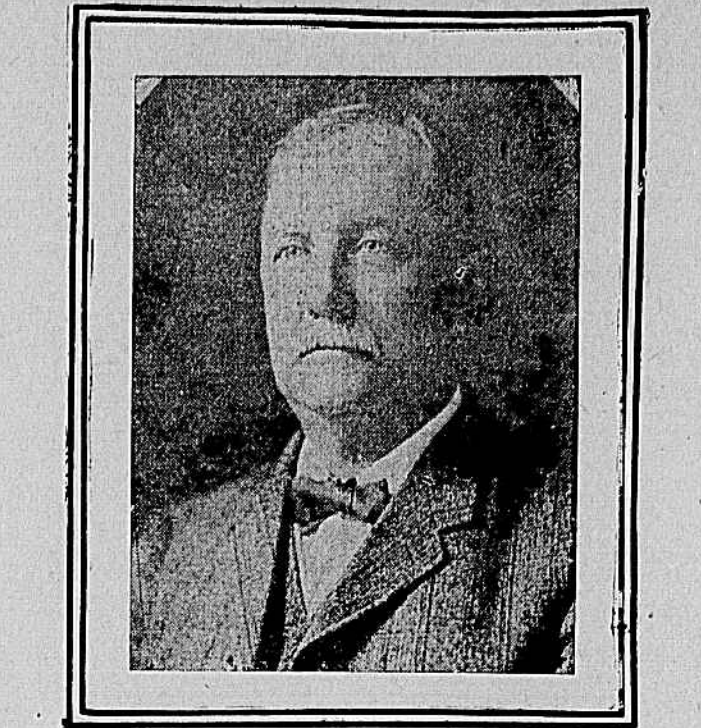

CITY'S RIPARIAN RIGHTS

Possible Clash With Old Dominion Iron and Nail Works. There is some talk that there will be a conflict between the riparian rights of the city and those of the Old Dominion Iron and Nail Works. The plans for the erection of the new municipal electric plant, by the raising of the dam above Belle Isle nearly six feet. This may probably affect considerably the water-power of the Old Dominion Company. What will be done, if anything, is not yet ascertainable.

The work of demolishing the Old Burnhouse has already begun, and within a fortnight will probably be completed.

LEG BONES FRACTURED

C. H. Miller, of Church Hill, Struck by Broken Machinery and Badly Injured. C. H. Miller, a 35-year-old employee of a lumber mill at Twenty-eighth and Main Streets, was struck by a piece of broken machinery while at work yesterday. Both bones of his left leg were fractured. He was attended by Dr. Collier, of the city ambulance, and was afterwards taken to the Retreat for the Sick.

CAPTAIN ELLISON A. SMYTH, Chairman of the Board of Governors, Who Will Call the Meeting.

## COUNCIL NINE TAKES HIS GIRL FULL OF SNAP AND GOES SOUTH

Aggregation Will Show Baltimore City Fathers That It Can Play Ball.

The City Council nine put in a good practice yesterday afternoon on the Broad Street diamond. About two dozen of the city fathers came out to try for the team, but there would have been even more had it not been for the threatening aspect of the weather. The practice was snappy, and Tucker on first, Buford on second, and J. C. Powers on the third sack, put up some good baseball for the delectation of a small-sized crowd in the grandstand. The catcher caught barked, and Pollock on short complained that the ball was too hard, but these were merely the signs of preliminary stiffness and unaccustomedness to the game. Clyde Ratliff was on the job as field captain, and declared that his material promised well.

There are no ex-professionals on the team, but the aggregation will show the Baltimore end of the game that they are mighty good amateurs.

Practice at Byrd Park.

The practice on Wednesday will be at Byrd Park, instead of the usual place, but only on that day will the practice place be changed. To-day and all the remaining Wednesdays, Tuesdays and Mondays, the aspirants will wield the bat and ball at Broad Street Park.

Those who came out yesterday were Reynolds, Ed Barber, J. C. Powers, R. Tucker, Hirschberg, Buford, Pollock, Gentry, Rogers, Watkins, Davis, Ratcliffe, Reid, Ferguson, Reid.

Three of the star players—Cutchina, Lynch and Richardson—were for various valid reasons absent, but they will appear next time in good form and fine fettle.

Uniforms will be donned on Monday.

BUY ALCO AMBULANCE

American Locomotive Company Given Contract by City Home Committee. The Committee on Relief of the Poor met last night in a prolonged session at the City Home. Its most important action was its decision to buy from the American Locomotive Works a forty-horsepower Alco ambulance for the use of the City Home, costing \$4,256.

There was considerable discussion on the automobile ambulance. Messrs. Bennett and Nelson voted finally against the proposition as it stood.

Mr. Fry Improving.

Manager P. M. Fry, of the Jefferson Hotel, who has been ill since last Tuesday, was improving last night. He was taken sick suddenly with stomach trouble. His family being out of the city, he has occupied a room in the hotel.

Meetings Postponed.

The Committees on Water and Streets, called for 8 o'clock last night, both failed of a quorum. The former will meet Wednesday afternoon at 5:30 o'clock, and the latter at 8 o'clock Thursday night.

Captain McCabe Coming Home.

Captain W. Gordon McCabe will sail for home to-day on the Caronia, of the Cunard Line.

Manchester Street Car Man on Vacation Keeps His Marriage a Dead Secret.

Until yesterday, although they had been bride and bridegroom for nearly five days, nobody, either in Manchester or Richmond, knew that C. T. Tinsley, a street railway motorman, on vacation, and Miss Bertha Crowder, of 315 West Seventh Street, in the South-side city, had been united in marriage. So quietly did the couple arrange their plans that no previous suspicion of the event was received. The ceremony was performed last Thursday morning by the Rev. J. C. Spence, of Elizabeth City, N. C.

Miss Crowder was supposed to be visiting relatives, while Tinsley's only excuse before he left was: "I'm going away to have a good time." A jubilee was given in Manchester when the couple returned, and many friends assembled to offer congratulations. The bride and groom are both young. Mr. Tinsley has run between Richmond and Forest Hill Park for several years.

Every day on his trips back and forth, the patient employee saw Miss Crowder on her porch, and gradually a passing acquaintance resulted in a friendship, and from this it developed into something more serious. Mr. and Mrs. Tinsley spent Sunday at Ocean View, and in future will be at home to their friends at 403 West Seventh Street, Manchester.

LAKE LOST IN A NIGHT

Como, Near La Crosse, Wis., Becomes Mass of Mud.

LA CROSSE, WIS., August 16.—Beautiful Lake Como, at Hokah, Minn., a suburb of La Crosse, disappeared during Saturday night. When residents of the village arose yesterday morning they were surprised to find the area which the lake had covered a mass of sand.

A dam 300 feet long at the foot of the lake, established by the Chicago, Milwaukee and St. Paul Railroad Company thirty years ago, which had been used for power purposes by the Hokah Milling Company and others since, disappeared with a roar early yesterday morning.

STEWART SUCCEEDS SHIPPY

Chicago Aldermen in Special Session Confirm Former's Appointment.

CHICAGO, August 16.—Chicago Aldermen in special session to-day confirmed the appointment of Colonel Laro T. Stewart as Chief of Police, to succeed George M. Shippy, resigned.

Colonel Stewart will probably begin the performance of his duties late in the week, after disposing of affairs pending in his former work as superintendent of the city delivery in the Chicago post-office.

Police Court Cases.

The case of Edward Pittman (colored), charged with stealing a number of cigars from the Federal Cigar Company, was continued till to-morrow morning.

The case of Daly Mimms (colored), charged with operating a policy shop, was continued to August 31.

Robert Thomas (colored) was dismissed of the charge of stealing twenty copies of The Times-Dispatch.

## HARD WORK TO GET DRINKSON SUNDAY

Police Raids Fail to Find Speakeasies Where Product Is Sold.

LID ON AFTER BARS CLOSE

According to Police, Practically All Policy Shops Have Been Driven Out.

Richmond is now fairly clean of speakeasies, according to police officers who have made weekly rounds on Sunday to discover and break up all the places where whiskey and beer are alleged to have been sold.

Two officers made the rounds in the Second District Sunday afternoon, and two other officers were sent out in First District. They worked from early in the morning until late in the evening without being able to locate a single "joint" and without being able to find a place on which even suspicion had been cast.

In the past it had been usual to catch one or two speakeasies every Sunday, but the police have been so active that those who formerly broke the law in this respect with impunity have become wise to the fact that the living of a fine for selling five-cent shorts is too precarious, and they have given up the business.

Hard to Find Liquor.

Speakeasies were in other times scattered all over the city, and one was caught one night in the rear of the First Station. It was operated by the janitor of the station, but none of the officers suspected that the trusted employee was selling whiskey behind their backs. Now, it is said, it would be a difficult matter for even those who are supposed to know the ropes to find a place where he could buy a drink on Sunday. Sunday selling is practically broken up. It is a significant fact that with the going of the speakeasies many policy shops have also been driven out, and to-day, so far as direct information can be received, there is not a shop in the city of Richmond, the last place alleged to be run as a policy shop having been raided Saturday. The case is still pending in the courts.

CABINET FOR VENEZUELA

President Gomez Names a Government Council.

CARACAS, August 16.—The new Venezuelan Cabinet was announced officially to-day as follows: Minister of the Interior—Linares Alcantara (reappointed). Minister of the Exterior—General Juan Piar.

Minister of Finance—Dr. Adel Santos.

Minister of War—General Regulo Olivares (reappointed).

Minister of Patronage (Pomento)—Rafael Carabano (reappointed).

Minister of Public Works—Dr. J. M. Ortega-Martinez.

Minister of Public Instruction—Dr. Maldonado (reappointed).

Secretary-General—Antonio Pimental.

Governor of Caracas—Dr. Carlos Leon.

President Gomez has appointed a government council, as provided for by the new Constitution, consisting of ten members. They include a number of prominent politicians and several of the best of the officers.

Raymond Ayala is president, and Nicholas Rolando and General Reira, first and second vice-presidents of the council. These officials act as vice-presidents of the republic in the order named.

NEW TELESCOPE FOR ARMY

Enables Gunner to See Enemy While Invisible to Them.

WAKEFIELD, MASS., August 16.—After years of patient experimenting and improvement, in the course of which his ideas have been a times held up to ridicule, Dana Dudley, of this town, has just had the satisfaction of having his "pan angle" telescope adopted by the War Department of the United States.

The invention is simple in its construction, yet, it is said, may revolutionize the method of aiming of guns of reflecting lenses so arranged at angles in a tube that persons or objects above or below and on all sides may be viewed from a place of concealment.

The device as constructed for use in warfare is arranged so that even on disappearing hillsides or in the midst of reflecting lenses so arranged at angles in a tube that persons or objects above or below and on all sides may be viewed from a place of concealment.

The device as constructed for use in warfare is arranged so that even on disappearing hillsides or in the midst of reflecting lenses so arranged at angles in a tube that persons or objects above or below and on all sides may be viewed from a place of concealment.

FIREBUGS BUSY AGAIN

No Less Than Five Fires in Two Hours Break Out in Rochester.

ROCHESTER, N. Y., August 16.—After a jolt of several weeks, incendiaries are believed to have begun their work again in Rochester last night, when no less than five fires were discovered in less than two hours. On Broadway a fire was seen to run away from a building which had just been discovered ablaze. The heaviest losses were in the Walter May commission house on that street and in the Wayne County Driers and Packers Fruit Company, both being in the Railroad Street block. They were burned out. The loss is about \$50,000.

Later, the inside of the factory of the Rochester Mattress Company was destroyed with a \$50,000 loss. A bottle thought to contain gasoline started a fire in a flat on Jay Street, but a resident of the block gave the alarm in time. The other fires were unimportant.

DISABLED BARK IN PORT

Norwegian Vessel Arrives in New York.

NEW YORK, August 16.—The Norwegian bark Garona, dismantled, of nearly all her original upper spars and rigging, arrived here to-day from Java after a voyage of 11,000 miles and 140 days at sea. She sailed from Padang March 27, and April 11, while still in the Indian Ocean, far to the south-east of Java, encountered a storm which brought down her three topmasts and topgallant masts, with yards and sails. The wreckage dragged, pounding her side, and threatened grave damage to the craft until away by the crew. A jury rig was later effected by the crew, and she made most of the voyage under these small sails. When off the Cape of Good Hope, June 10, a hurricane carried away the main lower topmast and the foretopmast staysail.

### W.L. DOUGLAS

**\$3.00 \$3.50 & \$4.00 SHOES**  
**BOYS SHOES \$1.75 & \$2.00**
